

Depictions of Gratitude from the Clarke Community

We asked the Clarke community: **What are you grateful for this year?** Here is a sampling of the thoughtful responses we received from Clarke families, staff, students and alums!

“My son [Ollie] graduating from mainstream kindergarten all thanks to

Clarke alum Ollie.

*the foundation the staff at
Clarke gave him!”*

— Jennifer, Clarke Parent

*“I am grateful for my [Clarke] speech
therapists (Mary and Sarah). I was still
able to have speech therapy via Zoom. It’s
always nice to see their pretty faces. I loved
them!”*

— Kayla, Clarke Alum, 7th Grade

“Friday toddler classes over Zoom have given my kid a chance to grow his language through a rich routine of socializing and exploring different themes with teachers, parents and other kids like him. Jeana, the early intervention coordinator, makes weekly deliveries of supplies to each kid, which is so above and beyond and such a happy part of the week for us!”

— Katie, Clarke Parent

“We are grateful to enjoy more family time with our son, Randall, while both me and my partner work remotely at home. It is not easy, but everyday we can have more flexibility to talk with him, play with him and appreciate all the progress of listening and vocalization.”

Randall enjoys water play in the summer of 2021.
